

FlexiBowl Parts Feeder

Flexible part feeding for automation systems. The FlexiBowl Parts Feeder reduces changeover times and improves feed rate/increases productivity.

FlexiBowl by ars

INDEPENDENT
AND SIMULTANEOUS
ACTIVITIES

A | Dropping
B | Separating
C | Picking

FEEDER BOWLS

- Sizes to meet application needs
- Sort up to 6 parts concurrently

BULK FEEDERS

- 5 - sizes to meet application needs

ACCESSORIES

- Vision packages
- Diverters
- Quick empty

APPLICATIONS

- Automotive
- Electronic
- Cosmetics
- Plastics
- Medical
- Non-rigid materials

FEATURES/BENEFITS

- Cleanroom versions
- Can be used for multiple parts. The feed top can be divided into segments to provide a single feeder for up to 6 different parts concurrently.
- Integration to all common PLC's and robots
