

## Reelcraft Hose Reels

### Reels and accessories in-stock at Triad Technologies locations!

Reelcraft manufactures the widest range of hose, cord, and cable reels. Models include spring retractable, motor driven, and hand crank reels, handling hose lengths up to six hundred feet and ranging from ¼ inch to 4 inches in diameter and beyond. The spring retractable models are widely used in industrial applications to improve efficiency and safety by keeping hoses and cables off the floor as well as maintenance areas to provide air or power when and where it is needed.

### Why use hose reels?

- ✓ **Improve Efficiency:** Hoses, cables, and cords are where you want/need them
- ✓ **Minimize Leakages:** Reduce costs of air and water leakages
- ✓ **Increase Safety:** Reduce tripping accidents and lost work time
- ✓ **Reduce Hose Wear:** Hose and cord on a reel can last up to five times longer
- ✓ **Increase Productivity:** No more tangled hoses improves productivity
